PROFESSIONAL EXPERIENCE

Lead Software Developer

Chervic Advisory Services | May 2025 - Present

- Led a team while working with L&T on a customized project to simplify SAP Ariba tasks. Designed the architecture for a ticketing system product and implemented additional automation bots to enhance efficiency, making Ariba processes faster and more streamlined..

Software Developer

Propel Technology Group Inc | Feb 2024 - May 2025

- Worked on two major projects, PCTEL and Medpack, focusing on backend development with ASP.NET. Built scalable RESTful APIs and backend services, ensuring adherence to best practices and performance standards.

Full Stack Engineer

V-Align Technologies | Jan 2024 - Feb 2024

- Worked with a U.S.-based client (NMSDC) on a large-scale web application, focusing on frontend development using ReactJS and Redux. Built highly interactive, dynamic user interfaces to deliver an intuitive and seamless user experience.

Software Engineer

8ASE | Nov 2023 - Dec 2023

- Worked on IUXD Studio (React.js, Node.js, Express.js, EmailJS) and Worko, a work management tool (React.js, Redux, Tailwind CSS, Express.js). Collaborated with U.S. developers and clients, gaining experience in understanding requirements and delivering high-quality solutions.

Software Engineer Intern

Kodnest Technologies | Jan 2023 - Nov 2023

- Gained hands-on experience in Full Stack Development with Java SE, Java EE, SQL, JSP, Servlets, HTML, CSS, and JavaScript. Built a full stack web application "Shop Nest" and contributed to the KodNest application project, strengthening expertise in web development and data structures.
